ROGER UPTON - YOUR CONSERVATIVE CANDIDATE FOR THE RADCLIFFE DIVISION

County Councillors need to know what's happening in their Division. I've lived in Radcliffe for 45 years, I worked at the County Council for 35 years and I've been a Borough Councillor since 2015 - so I've a good knowledge of local issues and how the County Council works.

I'm standing as the Conservative Candidate for the Radcliffe Division because I believe I can represent all the communities in the Division and make a real contribution to the working of the County Council. The Local Choice with the Local Voice!

COVID

Thank you to all our keyworkers and volunteers for all that you have been doing to support our communities through the Covid pandemic. We're making progress with the vaccination programme, but we need a recovery plan to "Build Back Better" and grow our economy and community services responsibly.

We need a local employment strategy which focuses on training, reskilling and new apprenticeships, so that people can move into new jobs such as green technology. Covid has affected many people in different ways – economically, physically and mentally and we need to help them to rebuild their lives.

WOODLAND OFF THE A52 AT RADCLIFFE - PART OF COTGRAVE FOREST

Trees absorb carbon and form a vital part in our fight against climate change. They can help to regenerate urban areas, encourage wildlife and biodiversity, and slow down water run-off to help prevent flooding.

The Government has announced a new target for tree planting of 30,000 hectares every year, and last year the Borough Council gave out nearly 2,000 free trees - making a total of 7,500 since the scheme began - and I'll be campaigning for more tree planting and rewilding.
